Winter at Project Home

Please consider adopting one of our current Project Home families with new winter gear for the cold weather.

Outfit each family member with:

- * winter coat
- * snowpants (kids only)
- * winter boots
- * hat
- * scarf
- * gloves or mittens

Our families come in all shapes and sizes. Please consider adopting a larger family as a group project – gather family, friends, neighbors, others at your place of worship.

Check out our online sign up to see which of our current families need winter gear.

We ask that winter gear donations be new items.

When should we deliver the items?

As soon as possible! Please connect for drop off whenever you can. It's cold, but we know it takes time to organize and respond.

As families move out of shelter and new families come in, we will add their needs to the list throughout the Fall and Winter months.

If you can't help now, check back later to see the updated list!
